A Wizard From The Start: The Incredible Boyhood And Amazing Inventions Of Thomas Edison

Synopsis

A wizard from the start, Thomas Edison had a thirst for knowledge, taste for mischief, and hunger for discoveryâbut his success was made possible by his boundless energy. At age fourteen he coined his personal motto: âThe More to do, the more to be done,â • and then went out and did: picking up skills and knowledge at every turn. When learning about things that existed wasn't enough,Â he dreamed up new inventions to improve the world.Â From humble beginnings as a farmerâs son, selling newspapers on trains and reading through public libraries shelf by shelf, Tom began his inventing career as a boy and became a legend as a man.Â

Don Brown's A WIZARD FROM THE START: THE INCREDIBLE BOYHOOD & AMAZING INVENTIONS OF THOMAS EDISON tells of a boy with a thirst for knowledge and mischief - who turns his energy into skills and knowledge that resulted in dozens of new inventions. Over a thousand patents later, he was having fun inventing all kinds of things - a hobby that led to his fame and career. This biography reads like fiction and offers fine color drawings throughout.

Thomas Edison WAS one of my son's greatest heroes until he read the Author's Note &

Bibliography in this book informing readers that Edison electrocuted a circus elephant and other animals. Having a very caring heart for animals, my son is VERY distraught over this finding and NEVER wants to read about or discuss Thomas Edison again.

My 6 years old son liked it. It is interesting and one of best books about Edison and his childhood
