Time For Kids Book Of How: All About Sports

Synopsis

TIME For Kids The Book of How: All About Sports presents kids 8-12 years old with answers to the kinds of intriguing questions that appeal to their sense of curiosity. Colorful graphics, spectacular photos and clear, engaging diagrams will help answer questions such as: How are baseball bats made? How do ice skaters spin so fast? How can you stay upright on a surfboard? And many more. TIME For Kids goes beyond just answering the question, and engages kids with hands-on activities at the end of each chapter that bring life to a topic or idea they just read about. The Book of How: All About Sports is a must-have book to satisfy the most curious of kids.

Age Range: 9 - 12 years

Grade Level: 3 and up

Customer Reviews

Very misleading title. Only a few items about space. Many facts in book that are not space related. Very disappointing if you are looking for a book about space. Don't buy.

My son's teacher requested some space books, so I purchased this for the classroom. Discovered that only 33% of the book is about space- the other 2 chapters discuss Buildings and Transportation with interesting facts but absolutely nothing to do with space (unless you believe Mount Rushmore was built by aliens.) Looking past the misleading title, even the front/back cover of the book don't

highlight the fact that the majority of the book touches on non-space subjects.

The title is deceiving. Only a small part of the book is about space.

A bit disappointed in small number of pages. Contains good Information. Recommend to consider for purchase.

Perfect Christmas book for my seven year old Grandson for is a sports nut. He spent lots of time reading us fun sports facts.

This book is good for teaching. As long as it is not over their heads. Very well planned out book and I love the series.

My kids love this book so do I. Great storytelling and pictures.
