This is a great informational text for kids to learn about BB. I gifted this to a 10 year old and she loved it. She started posing... "did you know" questions to me to test my knowledge of the sport!! (yikes)... The text is well written, engaging and a great way for kids to learn using a reference/ informational text.

I bought this for my 7year old grandson and he loved it. In fact after he went to bed he got back up and got the book to read and his mom found him later that night sound asleep with the book still in

his hand. He told me that he learned some new moves from the book.

I purchased this book for my 12 yr. old son. After browsing through the pages, I have to say, this is a great book. It has sections that test your knowledge of what you read. My son has a vague knowledge of basketball, but I'm sure this will enlighten his interest.

After my toddler was obsessed with making me read the book Steve Likes To Shoot (Little Ballers Of The World Book 1)over and over again I realized he would continue to love reading if I kept buying books with a basketball theme.The author of this book introduces kids to all sorts of fun facts. Great read before bed.

I bought this for a young basketball lover...he opened it and started reading right away thats a good thing on so many levels...He enjoyed the book very much.

a gift for my 6 year old grandson, since he needs a sport to hold him over until little league...he liked it

My grandson is a reader and has enjoyed reading this book and applying all the tips. Its full of useful information. Highly recommend this book for the child starting to learn to play.

My grandson was signed up to start basketball, and he really enjoyed getting this book to become more prepared. It was full of information.
