Ready, Freddy! #22: Science Fair Flop

Synopsis

Everyone's favorite first-grade shark expert is back! With more than 3 million copies sold, it's clear that kids are ready for Freddy! Now that Freddy's in first grade he needs a real science experiment for the school fair. But Freddy isn't a science whiz like his best friend, Robbie. When he finally comes up with a plan -- growing mold -- his mom accidentally throws it away! Can he recreate it in time? Or will the fair be a total flop?

Customer Reviews

I love the voice of the Ready Freddy books and the nuggets of educational value in each title. I noticed in Science Fair Flop, however, that there is an inaccuracy. Mold is categorized as bacteria, when in fact, it is a fungus. Perhaps in subsequent printings of the book, this can be corrected. We don't want our young readers to be misinformed!

Freddy and his friends will continually inspire kids to stick together and fight bullies, keep trying and don't give up! Freddy's sister Susie is a hoot!

My 7 year old loves reading these books, I think because the book is talking about things she can relate to. Anything to get kids reading!

I am a random 9 year old and I LOVE the ready freddy book series I just love when his mom throws his science fair project

My daughter is a first grader and she really enjoy reading the books by Ready Freddy. I recommend it to all children.
