Synopsis

Using their hands, feet, and determination, rock climbers defy gravity and conquer amazing challenges! Readers will learn about the important aspects a rock climber must go through to prepare for a climb--from choosing the right climbing equipment to mapping out a training schedule. This nonfiction title uses detailed images and informational text in conjunction with math skills and upper-level features such as chapter format, a glossary of terms, and an index to engage and intrigue readers about the world of rock climbing.About Shell Education Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
